

Outdoor Sport Committee

Our Outdoor Sport committee consists of a group of pupils who are passionate about outdoor sports and activities. The committee has one representative from each class within the school ensuring everyone gets a voice. The role of the children in the committee is to share any issues, or requests made by children within the school or come up with their own ideas they believe will promote better outdoor sport or sporting facilities. Our committee has been in place for the last few years and has brought some big changes to the school. One of the biggest changes it has brought in recent years is the MUGA (multi use games area) which is a fully astro-turfed pitch that the children can play football and other various games on at playtimes, lunch times and during after school clubs. Some of the smaller, more day-to-day tasks of the committee is to monitor the sporting equipment that is used during playtimes, for example making sure all of the balls are pumped up and are put back where they belong after playtimes. Our school remains committed to outdoor sport and physical education through our initiatives to promote a healthy and active lifestyle and an array of different sporting after school clubs.
